| *课程简介 (Description) | <p>The “International Humanitarian Law” (IHL) course offers students a general overview of this particular branch of international law that regulates the conduct of hostilities in times of armed conflict. It intends to teach historical, comparative, legal and practical approaches relevant to the interpretation and application of IHL. It illustrates the contemporary challenges of IHL in today’s armed conflicts as faced in asymmetrical conflicts between states and non-state actors. Also the fight against international terrorism is equally subjected to such legal regime.</p> | | | | |
